

BAE Systems honors Pyramid Semiconductor with a Partner 2 Win Gold Tier Award

Sunnyvale, California – April 2nd, 2026 – Pyramid Semiconductor Corp. today announced it received a Gold Tier Award from BAE Systems' Partner 2 Win program. The award recognizes Pyramid Semiconductor's exceptional performance and contributions to the BAE Systems' Electronic Systems sector supply chain in 2025.

"We are honored to receive the Gold Tier Award from BAE Systems," said Jerry Chang, CEO of Pyramid Semiconductor. "This recognition underscores the value of strong collaboration and a shared commitment to operational excellence. At Pyramid, we focus on sustaining and recreating trusted devices to ensure long-term availability for mission-critical systems. We are proud to support BAE Systems and look forward to further strengthening our partnership."

BAE Systems' Partner 2 Win program drives operational excellence and eliminates inefficiencies in its supply chain by raising the bar of performance expectations to meet the demands of current and future customers. As part of the program, BAE Systems meets regularly with its [suppliers](#) to transfer best practices and ensure the components and materials that compose its products meet the highest quality standards.

"Without the demonstrated commitment to operational excellence from our supplier partners, we would not be able to deliver for our customers," said Jennica Dearborn, vice president of Operations for BAE Systems' Electronic Systems sector. "Their collaborative support and dedication has been critical to overcoming challenges and achieving new levels of performance, scale, quality, and innovation for our customers. We look forward to continued partnership."

About BAE Systems

[BAE Systems, Inc.](#) and its nearly 41,500 people are part of a global defense, aerospace, and security company with more than 110,000 employees worldwide. We engineer, manufacture and deliver a full range of products and services for air, land, sea and space, as well as advanced electronics, intelligence, security, information technology solutions and support services. Our dedication shows in everything we do for our customers. Guided by a performance-driven culture of innovation and collaboration, our ambitious teams push the limits of possibility to protect those who protect us.

About Pyramid Semiconductor Corp.

[Pyramid Semiconductor](#) provides extended lifecycle support through continued availability of legacy high-reliability processors, memory and logic products supporting defense, aerospace, and mission-critical industrial systems. With a heritage built on performance, longevity, and U.S.-based manufacturing, Pyramid specializes in sustaining and recreating trusted devices that prevent supply chain disruptions and extend the lifecycle of critical platforms.
